No. P.—8 OF 1925.

OFFICE OF THE SURGEON-GENERAL
WITH THE GOVERNMENT OF BOMBAY:

Poona, 29th June 1925.

From

LIEUT.-COLONEL K. V. KUKDAY, I.M.S.,
Offg. Surgeon-General with the Government of Bombay,
Poona;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit the Annual Report on the Mental Hospitals in the Bombay Presidency for the year 1924.

2. *Buildings.*—Besides minor improvements in subsidiary buildings such as kitchens, bath-rooms, lavatories, etc., a block for 24 female pauper patients and a hospital ward of 16 beds are under construction at the Naupada Mental Hospital.

3. Particulars of the Mental Hospital, Yeravda, are mentioned in the body of the report of that hospital published separately.

4. *Water-supply.*—The Hyderabad Sind Mental Hospital has a well-water supply. All other institutions are supplied with pipe-water. The supply is good and sufficient.

STATEMENT No. I.

Population.

5. The total population of the Mental Hospitals during the year under report was 2,002 against 1,933 in 1923—an increase of 69. Admissions during 1924 including re-admissions, were 440 males and 95 females against 429 males and 85 females respectively in the previous year. The daily average strength was 1,489·6 as compared with 1,481·9 in 1923.

Discharges—cures.

6. During the year 285 patients were discharged recovered, 41 improved, 32 not improved and 25 were discharged otherwise.

Sickness and Mortality.

7. The daily average number of sick treated in hospital was 66·8 as compared with 56·9 in 1923. The percentage of sickness to the

daily average strength was 4·5 in 1924 against 3·8 in 1923. Infectious diseases prevailing in the neighbouring population were generally successfully kept out by vaccination and inoculation among the inmates.

8. There were 120 deaths against 98 in 1923. The ratio of deaths to the daily average strength was 8·1 as compared with 6·6 in the previous year. The following table gives the ratio per cent. of deaths to the daily average strength at the several Mental Hospitals during the year:—

	Males.	Females.	Total.
Naupada, Thana	20·8	19·9	20·6
Ratnagiri	4·0	7·0	4·8
Central Mental Hospital, Yeravda—			
Europeans...	1·4	3·3	2·3
Indians	6·9	1·8	5·6
Dharwar	9·0	12 9	10·3
Ahmedabad	2·6	6·2	3·5
Hyderabad (Sind)	3·7	10·1	3·9
Total ...	8·1	7·9	8·1

9. The increase in the number of deaths was contributed mainly by the Mental Hospitals at Naupada and Yeravda. The increase is attributed at the latter hospital to the admission of several moribund cases and deaths among chronic cases rather than to the occurrence of any acute or infectious disease and at the former to the large number of deaths from bowel and lung complaints. The chief causes of deaths at the several Mental hospitals during the year were: Dysentery (13), Tubercle of the lung and other tubercular diseases (22), Diarrhœa (22), Pneumonia (6), Diseases of the heart (4), and Anæmia (9).

Statement No. II.

Criminal Insanes.

10. The total number of criminal insanes confined in the Mental Hospitals during the year 1924 was 276 (258 males and 18 females) with a daily average strength of 193·4.

Statement No. III.

Religion.

11. Of the 535 insanes admitted during the year there were 28 Europeans and Eurasians, 25 Indian Christians, 314 Hindus, 142 Mahomedans and 26 belonged to other castes.

Statement No. IV.

Previous occupation of the insanes admitted.

12. Domestic servants (54) furnished the largest number of admissions followed by labourers (50), cultivators (37), clerks (29),

mendicants (28), merchants and traders (23) and 124 of various other occupations. In 168 cases the previous occupation could not be ascertained and 22 had no occupation.

STATEMENT No. V.

Ages of insanes admitted.

13. Forty insanes were under 20 years on admission; 376 were between 20 and 40 years; 114 were between 40 and 60 years and 5 were upwards of 60 years.

STATEMENT No. VI.

Types of insanity.

14. The principal types of insanity treated were mania 738 against 753 in 1923, melancholia 361 against 306, dementia 245 against 268, delusional insanity 98 against 116, insanity caused by *Cannabis Indica* or its preparations 108 against 123, and idiocy 51 against 53.

STATEMENT No. VII.

Ætiological factor and associated conditions in the insanes admitted.

15. The principal predisposing and exciting causes were mental stress 59 against 64 in the previous year, the abuse of intoxicants 68 against 74, mental instability 57 against 44 and toxic diseases 35 against 20. Owing to insufficient history the causes of insanity were not ascertained in 152 cases as compared with 178 in 1923.

STATEMENT No. VIII.

Cash accounts.

16. The receipts from paying patients amounted to Rs. 85,417, in 1924, against Rs. 83,985 in 1923. The value of stores received from the manufacturing department *less* cost of raw materials was Rs. 13,388. The total receipts under the two heads were Rs. 98,795 as compared with Rs. 96,812 in 1923.

17. The total expenditure during the year amounted to Rs. 8,19,978 against Rs. 7,74,413 in 1923. Deducting the receipts, the net expenditure was Rs. 6,06,628 against Rs. 5,66,059 in 1923. The following table gives the cost per head of daily average strength in the different institutions during 1923-1924;—

Institution.	1923.	1924.
Naupada, Thana	391	407
Ratnagiri	261	250
Central Mental Hospital, Yeravda...	755	817
Dharwar	236	288
Ahmedabad	235	234
Hyderabad (Sir C. J.)	284	257

Employment and amusements.

18. Besides helping in the domestic work of the institutions, gardening, weaving and cane work form the chief occupations for males and sewing, knitting, grinding corn, etc., for the females.

19. By way of amusements, Mr. A. C. Patel having made a gift of a Cinema apparatus to the Mental Hospital, Yeravda, the Empire Cinema Company, Poona, give a free cinema entertainment every week to the inmates of that institution. Similarly some charitable persons have also presented a piano for that institution. At Ahmedabad Mr. Chunilal Nagindas Chinai has presented a harmonium and has also engaged a harmonium-player on Rs. 10 per mensem to give entertainments to that hospital. Music on the gramophone, indoor games, reading of books and newspapers, juggling entertainments, and even outdoor games as tennis and cricket are used for recreation of the inmates.

Visitors.

20. The official visitors were regular in their attendance at all the hospitals.

General Remarks.

21. Lieut.-Colonel J. Shaw, I.M.S., who has been in charge of the Central Mental Hospital, Yeravda, is shortly proceeding on leave pending retirement and I would take this opportunity of commending to the notice of Government the services rendered by him in connection with the administration of the Department of Psychiatry in this Presidency and the various reforms introduced by him in that department.

22. A summarised report of the Mental Hospital, Yeravda, is published as an appendix.

I have the honour to be,

Sir,

Your most obedient servant,

K. V. KUKDAY,

Lieut.-Colonel, I.M.S.,

Offg. Surgeon-General with the Government of Bombay.

APPENDIX

Summarised Report of the Central Hospital for Mental Diseases, Yeravda, for the year 1924.

I have been in charge of this hospital throughout the year.

Statement I.—On the 1st January 1924 the hospital had a population of 534 (378 males and 156 females). The admissions and re-admissions during 1924 were 133 males and 36 females, giving a total of 169 as compared with 153 (142 males and 11 females) during the year 1923.

The total number treated in 1924 was 703 as compared with 655 in 1923.

During the year 83 patients were discharged recovered, 19 improved, 19 not improved and 1 escaped, making a total of 122. There were 26 deaths in 1924, leaving a total of 555 on the 31st December.

The general health of the inmates continued good throughout the year and though there were a larger number of deaths than usual during the year under report, this was due to the admission of several moribund cases and to the fading out of several old chronic inmates rather than to the occurrence of any acute or infectious disease.

The daily average strength in 1924 was 543·9 (375·6 males and 168·3 females) against 518·2 (361·7 males and 156·5 females) in 1923.

Statement II—Criminal lunatics.—The total number of criminal lunatics was 40 during the year under report, as shown in the statement, out of which 6 were discharged and 3 died, leaving a total of 31 on 31st December 1924. The maximum number of criminal lunatics on any one day during 1924 was 35 and the minimum 27. As has been frequently pointed out the accommodation for criminal lunatics here is very small and, as these must include the best workers, the proposed new acute section is desirable from every point of view.

Occupation of patients.—This is gardening, working on the large farm, assisting in office, in the library, stores, kitchens, carpenters' shop and cleaning wards, etc. Weaving and caning of chairs has afforded occupation to certain inmates since the appointment of special weaving and caning instructors, while female patients are occupied at needle-work, knitting, grinding corn, etc.

Hospital outturn.—The value of garden produce supplied to the hospital as well as the public in 1924 was Rs. 9,541-9-5 as compared with Rs. 8,708-6-4 in 1923. This year we made jaggery from our sugarcane crop as we did in 1923. The estimated value was Rs. 2,186 against Rs. 1,035 during the previous year. The jaggery made here is used in the hospital diets and considerable saving is effected thereby as market rates vary cons derably during the year.

Recreation and Amusement.—The amount spent from the special allotment this year was Rs. 2,032-7-4 as compared with Rs. 1,439-1-9 in 1923. The usual weekly Recreation Hall entertainments have been held throughout the year, consisting of games, music and other shows, *e.g.*, juggling and dances, and several patients enjoy drives, while many are taken for walks in the country. Owing to the great kindness of the Proprietor of the Empire Cinema, Poona, a weekly cinema entertainment is given here to the patients, Mr. A. C. Patel's gift of an apparatus rendering this possible. At Christmas and at the various annual festivals such as Diwali, special entertainments have been given to the inmates. In addition to the instrument in the general recreation room, a piano has been bought during the year from private donations for the main sitting room on the female side, and on the male side billiards, cricket and tennis afford amusement and relaxation to those patients who can take part in them.

(Sd.) W. S. J. SHAW,
M.D., Lt.-Col., I.M.S.,
Superintendent,
Central Hospital for Mental Diseases, Yeravda.

GOVERNMENT OF BOMBAY.

GENERAL DEPARTMENT.

Resolution No. P.—53.

Bombay Castle, 30th November 1925.

Letter from the Surgeon General with the Government of Bombay, No. P.—8, dated the 4th November 1925 :—

"I have the honour to forward the Annual Report on the Mental Hospitals of the Bombay Presidency for the year 1924 and to state for the information of Government that there is nothing in it the immediate publication of which can be considered of doubtful expediency."

RESOLUTION.—The Report should be published.

By order of the Government of Bombay
(Transferred Departments),

A. H. DRACUP,
Under Secretary to Government.

To
The Surgeon General with the Government of Bombay,
The Director of Public Health for the Government of Bombay,
The Commissioner in Sind,
